SALES AND MARKETING POLICY

(Union Petrochemical Public Company Limited)

Union Petrochemical Public Company Limited (the "Company") is committed to conducting its chemical sales and marketing business responsibly, transparently, and fairly, with due consideration for product quality, safety, customer needs, and impacts on stakeholders. The Company adheres to business ethics, applicable laws, and the provision of accurate, complete, and verifiable product information.

The Company recognizes the importance of customer responsibility, particularly for chemical products involving quality, safety, storage, transportation, and use. Accordingly, the Company emphasizes appropriate product communication; preventing misleading communications or marketing; protecting customer data; receiving and resolving complaints; and responsibly managing the impacts arising from product use.

This Policy serves as a guideline for the Company's executives, employees, and other persons involved in sales and marketing activities. It covers product presentation, marketing communications, pricing and commercial terms, customer service, complaint management, customer data protection, and business continuity, as follows

1. Customer Responsibility

Conduct business in accordance with the principles of Customer Responsibility by providing products and services that are high-quality, safe, compliant with applicable requirements, and supported by accurate information. The Company shall also listen to customer feedback and use suggestions to continuously improve its operations.

2. **Non-Misleading Marketing and Communications**

   Prevent marketing, advertising, and commercial communications that may mislead customers. The Company shall not provide false information, conceal material information, or make claims about product properties, quality, benefits, or safety beyond what can be verified by available information or evidence.

3. **Accurate Product Information**

   Provide customers with accurate, complete, and up-to-date product information, particularly regarding quality, properties, use, limitations, and safety. Where appropriate, the Company shall provide relevant documents such as Safety Data Sheets (SDS), Certificates of Analysis (COA), specifications, labels, and safety information to support correct and safe product use.

4. **Customer Personal Data Protection**

   Protect customers' personal data by collecting, using, disclosing, and retaining such data only as necessary and in accordance with applicable laws and Company policies. The Company shall implement appropriate measures to prevent unauthorized access to, use of, or disclosure of customer data.

5. **Cybersecurity and Data Security**

   Implement cybersecurity and data security measures to protect customer and business information against loss, unauthorized access, alteration, disclosure, or use. The Company shall also promote employee awareness of relevant risks and compliance with information security measures.

6. **Customer Complaint and Feedback Channels**

   Provide appropriate and accessible channels for customer complaints and feedback. Customers shall be able to conveniently report issues relating to product quality, safety, delivery, service, product information, or other matters concerning the Company.

7. **Systematic Complaint Management**

   Establish a systematic complaint management process covering receipt and recording of complaints, severity assessment, root-cause analysis, corrective action, prevention of recurrence, and follow-up. Response and resolution timeframes shall be appropriate to the severity and nature of each issue.

8. **Customer Satisfaction Monitoring**

   Monitor and measure customer satisfaction through appropriate methods, such as satisfaction surveys, customer feedback, or service quality assessments. The results shall be used to continuously improve products, sales processes, services, and customer relationships.

9. **Customer Loyalty Metrics**

   Consider using appropriate customer loyalty indicators, such as Net Promoter Score (NPS) or other Customer Loyalty Metrics, to monitor trends in customer relationships, loyalty, and experience. The results shall inform improvements in service quality and customer relationship management.

10. **Sustainable Product Selection and Development**

    Promote the selection and development of products with sustainability in mind, considering quality, safety, performance, resource use, environmental impacts, and product life-cycle suitability, as appropriate to the nature and scope of the business.

11. **Management of End-Use Product Impacts**

    Provide customers, as appropriate, with information on product use, storage, transportation, waste management, and safety precautions. The Company shall promote proper and responsible product use with due regard for health, safety, and the environment.

12. **After-Sales Product Responsibility**

    Take responsibility for products after sale by monitoring quality and safety issues, receiving customer complaints, and coordinating with relevant departments and business partners to resolve problems. The Company shall take corrective action or recall products when justified and in accordance with applicable requirements.

13. **Transparent Pricing and Commercial Terms**

    Clearly, transparently, and verifiably communicate prices, sales terms, credit terms, payment, delivery, and other commercial conditions. The Company shall treat customers fairly and shall not use information or terms that may mislead them.

14. **Sales and Marketing Employee Training**

    Encourage sales and marketing employees to receive training in business ethics, anti-corruption, accurate product communication, customer data protection, product safety, and fair customer treatment so that they can perform their duties responsibly and professionally.

15. **Customers with Vulnerabilities or Specific Needs**

    Consider the risks and specific needs of customer groups that may be vulnerable or face limitations in accessing information or services. The Company shall emphasize clear and appropriate communication that does not cause misunderstanding, taking into account the products, customers, and relevant risks.

16. **Business Continuity Planning**

    Emphasize Business Continuity Planning (BCP) to maintain the supply and delivery of products and the provision of customer services. Risks to be considered include disruptions to the supply chain, transportation, manufacturers, sourcing channels, natural disasters, emergencies, geopolitical conditions, cybersecurity, and other factors that may affect customer service.

17. **Business Ethics and Fair Competition**

    Conduct sales and marketing activities in accordance with business ethics. The Company shall neither give nor accept bribes, seek personal benefits from transactions, nor engage in conflicts of interest. The Company shall promote fair commercial competition and comply with applicable laws.

18. **Compliance with Laws and Requirements**

    Comply with laws and requirements applicable to products and sales, including consumer protection laws, chemical-related laws, import and export laws, and sanctions and trade compliance requirements relevant to the Company’s business.

19. **Monitoring Customer Responsibility Performance**

    Monitor performance in customer responsibility using appropriate indicators, such as the number of complaints and time taken to close them, customer satisfaction, NPS or other Customer Loyalty Metrics, on-time delivery, and product quality and safety issues. The results shall be used for continuous improvement.

20. Implementation, Review, and Continuous Improvement

All executives and employees involved in sales and marketing are responsible for supporting, promoting, and appropriately complying with this Policy. The Company shall monitor implementation, review the effectiveness of the Policy, and continuously improve its practices to align with applicable laws, business context, customer needs, and stakeholder expectations.

This Policy shall take effect from 2 March 2025
