MEMORANDUM ON VERIFICATION AND CERTIFICATION OF THE PROPORTION OF WOMEN IN MANAGEMENT POSITIONS

For the Year 2026

Document No.: HR-ESG-MEMO-2569-001

Date: 16 May 2026

Subject: Verification and Certification of the Proportion of Women in Management Positions for 2026

To: Chairperson of the Sustainability Development Working Group

The Human Resources Department has reviewed the records of employees holding management positions at Union Petrochemical Public Company Limited for the purposes of ESG reporting and the Company's disclosures for 2026.

The Company defines "management" as employees holding positions at Manager level or above, including Manager, Senior Manager, Director, Assistant Managing Director, Chief Officer and Chief Executive Officer, in accordance with the Company's organizational structure.

As of 16 May 2026, the Company had a total of 14 employees in management positions under the above definition, as detailed below:

Category	Number	Proportion
Female executives	8	57.14%
Male executives	6	42.86%
Total management personnel	14	100.00%

Calculation of the proportion of female executives:

Proportion of female executives = (Number of female executives ÷ Total number of executives) × 100 = (8 ÷ 14) × 100 = 57.14%.

The Human Resources Department has verified these figures against the Company's organizational structure, employee roster, job titles and position levels, and hereby certifies that the above information is accurate and complete based on the records available as of the reporting date. Should any subsequent changes occur in the organizational structure, appointments or departures from positions, the Company will update the information in the next reporting cycle.

This information has been prepared for submission to the Chairperson of the Sustainability Development Working Group, who is responsible for reviewing and approving ESG information and supporting evidence before they are used for the Company's reporting or disclosures.

We therefore respectfully submit this memorandum for your review and approval of the use of the above information in the Company's ESG reporting and disclosures for 2026.
